

Orrery Systems TQ-40 "Sable" Accelerator

Datasheet, revision 2 - supersedes revision 1

Electrical and thermal

Maximum junction temperature 94 C

Board power (TBP) 410 W

Auxiliary power connector 12V-2x6

Memory

Capacity 56 GiB HBM3e

Peak bandwidth 4.1 TB/s

Revision history

- r2 Junction temperature corrected to 94 C after
characterisation of production silicon. Revision 1 is withdrawn.
- r1 Initial release, preliminary silicon.
